

# Geemed<sup>®</sup> Healthcare

## OUR VISION

TO USE THE TECHNOLOGY IN EFFECTIVE WAY TO DELIVER HEALTHCARE AND SUPERIOR SERVICE AT AN AFFORDABLE COST.

**PRODUCT  
CATLOGUE**

# ABOUT

## COMPANY PROFILE:

We are a Young and Aggressive company dedicated to becoming a market leader in the implementation of the latest technologies and products in a wide range.

**GEEMED HEALTHCARE** is established in 2010 for serving people for both domestically and internationally.

The Firm has full-fledged vertically integrated manufacturing facility, following strict GMP guidelines. Every single product is made with proper attention to detail, offering a high standard of quality and safety.

## FACILITIES:

- Class 10,000 Clean Room
- Plastic Injection Molding
- Medical tubing extrusion & corrugation
- Packaging, Labeling, Bar-coding
- Proper Sterilization, Quality control

# PRODUCT CONTENT:

-  ANESTHESIA & RESPIRATORY
-  ACCESSORIES
-  BLOOD MANAGEMENT
-  CONNECTORS
-  CRITICAL CARE
-  DIALYSIS
-  GASTROENTEROLOGY
-  INFUSION THERAPY
-  SURGERY & DRAINAGE
-  UROLOGY

03

## SUCTION CATHETER

(AR101-P / AR102-TC)

- Oro-bronchial catheter.
- Soft, Frosted and Kink resistant PVC tubing.
- Color coded connector for size Identification.
- Frozen surface tubing for smooth intubation.
- Plain and Thumb control both are available.
- Sterile, Individually packed in peelable pouch.

### SIZES

06,08,10,12,14,16,18FG  
PLAIN  
06,08,10,12,14,16,18FG  
THUMB CONTROL

### SIZES

000, 00, 0, 1,  
2, 3, 4, 5

- Integral hard bite block avoids airway occlusion and biting of tongue.
- Manufactured from Non-toxic, Non-irritant polymer PE.
- Bite blocks are colour coded for instant size identification.
- Sterile, Individually packed in peelable pouch.

## GUEDEL AIRWAYS

[AR103]

## ENDOTRACHEAL TUBE (PLAIN)

[AR104]

- Manufactured from thermosensitive material readily conforming to body contours at body temperature.
- Radio-opaque line throughout the length to facilitate the exact location of the tube.
- Proximal end is fitted with standard 15 mm connector.
- Sterile, Individually packed in peelable pouch.

### SIZES (PLAIN)

ID 2.0, 2.5, 3.0, 3.5, 4.0,  
4.5, 5.0, 5.5, 6.0, 6.5,  
7.0, 7.5, 8.0, 8.5, 9.0,  
9.5

## ENDOTRACHEAL TUBE (CUFFED)

[AR105]

### SIZES

(CUFFED)

ID 2.0, 2.5, 3.0, 3.5, 4.0,  
4.5, 5.0, 5.5, 6.0, 6.5,  
7.0, 7.5, 8.0, 8.5, 9.0,  
9.5

- Manufactured from thermosensitive material readily forming to body contours at body temperature.
- Soft, high volume, low pressure cuff provides an air tight fit between tube and trachea.
- Radio-opaque line throughout the length to facilitate the exact location of the tube.
- Sterile, Individually packed in peelable pouch.

04

## ENDOTRACHEAL TUBE (PLAIN RE-INFORCED)

[AR106]

- Flexo-metallic Endotracheal Tube for airway management.
- Murphy eye ensures clear airway and no mucus blockage.
- Radio-opaque line throughout the length to facilitate the exact location of the tube.
- Sterile, Individually packed in peelable pouch.

### SIZES

(PLAIN  
RE-INFORCED)

ID 2.0, 2.5, 3.0, 3.5, 4.0,  
4.5, 5.0, 5.5, 6.0, 6.5,  
7.0, 7.5, 8.0, 8.5, 9.0,  
9.5

## ENDOTRACHEAL TUBE (CUFFED RE-INFORCED)

[AR107]

### SIZES

(CUFFED  
RE-INFORCED)

ID 2.0, 2.5, 3.0, 3.5, 4.0,  
4.5, 5.0, 5.5, 6.0, 6.5,  
7.0, 7.5, 8.0, 8.5, 9.0,  
9.5

- Flexo-metallic Endotracheal Tube for airway management.
- Soft, high volume, low pressure cuff provided with non-return valve with pilot cuff.
- Radio-opaque line.
- Sterile, Individually packed in peelable pouch.

## LUNG EXERCISER [AR108]

### SIZES

**SINGLE BALL**  
**3 BALL**

- Useful in restoring and maintaining lung capacity of post operative ambulatory patients.
- Color Coded ball for easy Identification of 1200cc/sec 900cc/sec and 600cc/sec.
- Flexible tube holder.
- Non-Sterile, Individually packed in peelable pouch.

## TRACHEOSTOMY TUBE (PLAIN) [AR109]

### SIZES

(PLAIN)

ID 4.0, 4.5, 5.0, 5.5, 6.0,  
6.5, 7.0, 7.5, 8.0, 8.5,  
9.0, 9.5, 10.0

- Made of thermosensitive material which softens at body temperature to accommodate individual patient anatomy.
- Radio opaque blue line for X-ray visualization.
- Light weight, Non Irritant ensures zero inflammation
- Sterile, Individually packed in peelable pouch.

## TRACHEOSTOMY TUBE (CUFFED) [AR110]

### SIZES

(CUFFED)

ID 4.0, 4.5, 5.0, 5.5, 6.0,  
6.5, 7.0, 7.5, 8.0, 8.5,  
9.0, 9.5, 10.0

- Made of thermosensitive material which softens at body temperature to accommodate individual patient anatomy.
- Radio opaque blue line for X-ray visualization.
- Pilot balloon with non return valve facilitates the cuff inflation and deflation.
- Sterile, Individually packed in peelable pouch.

## CATHETER MOUNT [AR111]

- Double swivel elbow connector with suction port and cap provides better flexibility, easy accessibility and provide comfort to patient during suction.
- 15 mm I.D./22 mm O.D. connector .
- Collapsible corrugated tubing is inert to all anaesthetic gases and reagents.
- Sterile, Individually packed in peelable pouch.

## SPINAL NEEDLE [AR112]

- Specially designed to administer lumbar/ subarachnoid anaesthesia catheter.
- Fine gauze needle design greatly reduced the risk of PDPH (Post Dura Puncture Headache).
- Colour coded stylet enables rapid size identification.
- Sterile, Individually packed in peelable pouch.

### SIZES

16G, 17G, 18G, 19G,  
20G, 21G, 22G, 23G,  
24G, 25G, 26G, 27G

## OXYGEN MASK [AR13]

- Made from special Non-toxic medical grade PVC.
- Two holes to allow carbon dioxide exhaled by the patient to escape.
- Transparent tubing to connect the mask to the oxygen source.
- Elastic band for placement around the head.
- Sterile, Individually packed in peelable pouch.

### SIZES

ADULT  
PEDIATRIC  
NEONATES

06

## NEBULIZER MASK [AR114]

- Soft, clear aerosol mask with anatomical form is ideal for long term use.
- Nebulizes 3 cc within 10 minutes in horizontal or vertical position ensuring patient comfort.
- Rotating type connector for patient's comfort.
- Sterile, Individually packed in peelable pouch.

### SIZES

ADULT  
PEDIATRIC  
NEONATES

## VENTILATOR CIRCUIT (PLAIN) [AR115]

- Transparent for easy monitoring of water build-up or blockages.
- Used as passage for the medical gases into the patient's body, such as anesthetic gas, oxygen, etc.
- Tube body can be arbitrary extension and adjust the length, which make it convenient and more benefit
- Non-Sterile, Individually packed in LD pouch.

### SIZES

ADULT  
PEDIATRIC  
NEONATES

## VENTILATOR CIRCUIT (SINGLE WATER TRAP) [AR116]

- Designed to move breathable air into and out of the lungs.
- It is equipped with silicon reusable (autoclavable) and catheter mount that is reusable & latex free.
- Connectors for Patient side 22M/15 F & Machine side 22F.
- Non-Sterile, Packed in LD peelable pouch.

SIZES  
**ADULT  
PEDIATRIC  
NEONATES**

## VENTILATOR CIRCUIT (DOUBLE WATER TRAP) [AR117]

SIZES  
**ADULT  
PEDIATRIC  
NEONATES**

- Double Water Trap Circuit that we bring forth is recommended for both new born and infants.
- Made from premium EVA material in an impeccable manner.
- Flexibility rate it quite high.
- Luer Port 7.6 mm on Y Connector, 4.3 mm on Elbow Connector.
- Non-Sterile, Packed in LD peelable pouch.

## BAIN CIRCUIT [AR118]

- Co-axial modification of the basic T-piece system, developed to facilitate scavenging of waste anesthetic gases.
- Corrugated tube that is fitted with an expiratory valve
- Bain circuit is available with 22mm corrugated tube with expiratory valve & 2 litre antistatic bag.
- Non-Sterile, Packed in LD peelable pouch.

SIZES  
**ADULT  
PEDIATRIC**

## REBREATHING BAG [AR119]

- Reservoir bags are bladder-type bags, made of latex-free material or silicon.
- Reservoir Bag w/ 22mm F Connector.
- Having resistant to the electrical between 5 x 10<sup>4</sup> as well as 10<sup>6</sup> ohms.
- Non-Sterile, Packed in LD peelable pouch.

SIZES  
**0.5L  
1L  
2L**

## NASAL OXYGEN CANNULA [AR120]

- Two-pronged device used to administer oxygen to a patient through both nostrils.
- 2.1 meter tube, standard lumen, standard connector, Soft-touch nasal cannula, curved tip.
- Multi-channel tube ensures regular supply of oxygen even if the tube is accidentally kinked.
- Sterile and individually packed.

SIZES

**ADULT  
PEDIATRIC**

## HME FILTER [AR121]

SIZES  
**ADULT  
PEDIATRIC**

- Suitable for spontaneously breathing patients with a tracheostomy tube.
- Electrostatic filter with 99.99% filtration capacity
- ISO standard 15 mm and 22 mm fitting connects to breathing circuit.
- Sterile and Individually packed.

08

## NASOPHARYNGEL AIRWAYS [AR122]

- Suitable for suctioning in I.C.U.s & provide an alternative way when oropharyngeal airway is occluded.
- Smooth round edges, thin wall and kink resistance for maximum patient comfort.
- Made from soft, non-irritant medical grade PVC.
- Sterile and individually packed.

SIZES

ID 4.0,4.5,  
5.0,5.5,6.0,6.5,  
7.0,7.5,8.0  
,8.5,9.0

## GEE FLEX HEALTH TUBING MEDICAL TUBING [AR124]

- Made from soft, Non-irritant medical grade PVC.
- Used for connecting oxygen machine for supply of oxygen.
- Non-Sterile, Packed in LD POUCH.

SIZES

6.0mm  
8.0mm  
10.0mm  
12.0mm

# ACCESSORIES

09

## CONTROL SYRINGE [AS101]

- Used during various cardiology procedures.
- Latex free, specially designed for ease of use the plunger tip and barrel are designed for consistent and smooth movement.
- Control Syringe body and Ring Grip made up of Polycarbonate.
- Sterile, Individually packed in peelable pouch.

### SIZES

3ml, 5ml,  
10ml, 12ml

- Pressures up to 35ATM (514PSI).
- 5ml of safety space intended to minimize air bubbles introduced into the balloon.
- Packaged stand alone or customized to your specifications.
- Digital technologies.

## INFLATION DEVICE [AS102]

## BLOOD CARDIOPLEGIA DELIVERY SYSTEM [BM101]

- Helps most in pediatric open heart cases to arrest the heart and keep it preserved during aortic cross-clamping.
- Made from PVC ,Transparent tubing.
- Connected with aluminium heat exchanger,efficient heat exchanger.
- Work with cold water machine.
- Sterile,non-pyrogenic ,Individually packed with speical designed packing.

- Conforms to ISO 1135-4 standard.
- Cylindrical drip chamber provided with 200 micron filter to prevent passage of any clot into the chamber.
- 150 cm kink resistant tube.
- Efficient roller controller for accurate adjustment of infusion rate.
- Sterile, Individually Packed.

**SIZES**  
**VENTED**  
**18G**  
**NON-VENTED**  
**18G**

## BLOOD TRANFUSION SET [BM102]

## BLOOD TUBING SET [BM103]

- Perfect Medical produces dialysis blood line tubing set consist of arterial and venous lines.
- Pump Segment for Conventional and high flow rates.
- Made from PVC grade ,Non-toxic material.
- It is easy to handle and kink-resistant tubing.
- Non-DEHP, Non-pyrogenic and Non-toxic.
- Sterile,individually packed.

## ARTERIAL CANNULA [BM104]

**SIZES**  
20, 22, 24,  
26, 28, 30FR

- Features an introducer with blunt tip configuration that allows safe insertion for additional arterial access sites such as the aorta, axillary and subclavian.
- A lock feature reduces push-back of the introducer during insertion.
- Vent cap reduces back-bleed when no guidewire is used in the procedure.
- Depth markings aid in placement.
- Sterile, Individually packed.

11

## VENOUS CANNULA [BM105]

- Used in pediatric populations or adult populations, based on flow rate requirements and patient anatomy.
- Multiple port tip designed to increase drainage.
- Thin-Flex venous cannula with proprietary thin-wall technology designed to maximize flow rates.
- Sterile, Individually packed.

**SIZES**  
20, 22, 24, 26,  
28, 30, 32,  
34, 36FR

# CONNECTORS

## Y CONNECTOR (WITHOUT LUER LOCK) [CS101/103]

- Cardioplegia Connectors are manufactured from GE LEXAN polycarbonate.
- Manufacturing and processing satisfy the highest standards.
- The inside of Connectors is completely smooth allowing for less turbulence in blood flow.
- Non-Pyrogenic, Non-toxic and Non irritant
- Sterile, Individually packed.

### SIZES

3/16x3/16x3/16"  
1/4x1/4x1/4"  
3/8x3/8x3/8"  
1/2x1/2x1/2"

## STRAIGHT CONNECTOR

(WITH LUER LOCK)

[CS102/104]

- Cardioplegia Connectors are manufactured from polycarbonate Medical grade..
- Manufacturing and processing satisfy the highest standards.
- The inside of Connectors is completely smooth allowing for less turbulence in blood flow.
- Connectors special for leur port for connection and blood flow.
- Non-Pyrogenic, Non-toxic and Non irritant
- Sterile, Individually packed.

### SIZES

3/16x3/16x3/16"LL  
 1/4x1/4x1/4"LL

13

## MALE TO MALE CONNECTOR

[CS105]

- Non-pyrogenic, non-toxic and non irritant.
- Made from polycarbonate material.
- Connector to connect the two lines together .
- Both ends are protected or enclosed with dust cap to prevent from pyrogen
- Sterile, Individually packed.

## STRAP CONNECTOR

[CS106]

- Specially desinged to connect two tubes.
- Partition layer through the body for easy handling and easy use.
- Made from polycarbonate non-pyrogenic.
- Sterile, Individually packed.

## TUBE CONNECTOR [CS107]

- Variety of tube connectors are available, made up of PP,HD,PVC and other medical grade material DHEP Material are used.
- Used to connect two tubes together,for connecting two flow together or to maintain the flow of liquid ,blood or other chemical throughout the tubing.
- All are sterile and desinged with special care and standards.

# CRITICAL CARE

15

## CVC KIT [CC101]

### SIZES

SINGLE LUMEN  
DOUBLE LUMEN  
TRIPLE LUMEN

- Used for long-term central venous access for intensive infusion and/or transfusion therapy, invasive central venous pressure measurement and for blood collection.
- Conforms to ISO 7886, ISO 7864 standards.
- Single, double or triple lumen catheters.
- Thermoplastic urethane, ABS plastic, polypropylene, polycarbonate, silicone rubber.
- Needle – high-quality medical grade steel, manufactured in compliance with AISI standards.
- Guide wire is inserted through a Y-connector or a special introducer syringe (insertion through syringe plunger).

## VESSEL CANNULA [CC103]

- Used with heart, cardiopulmonary bypass, or vascular surgery to help check for leaks in a harvested vein that will be used in a graft.
- The cannulas feature an inlet female threaded luer connector.
- The outlet tip is blunted for patient safety.
- Outlet Tip Outer Diameter: Approximately 2mm.
- Sterile, individually packed.

## BIOPSY NEEDLE [CC104]

- UltraLight semiautomatic tru-cut needle for soft tissues biopsy with guillotine system with non-removable cannula.
- “Menghini” tip that allows an atraumatic precise cutting of the tissue.– Sliding stopper and centimeter marking on the cannula surface for an easily determination of the depth of insertion.

### SIZES

14, 16, 18,  
20, 21G

# DIALYSIS

17

## FISTULA NEEDLE [DY101]

- Use in the conjunction of the connector with hemodialysis blood tubing set.
- Ultra wall and siliconized fistula needle with or without back eye.
- Clear and kink-resistant tube with female leir lock and pinch clamp.
- Wing is desinged to be easily hold tight and firm.
- Sterile, Individually packed.

### SIZES

15G, 16G, 17G

## HEMODIALYSIS CATHETER [DY102]

- Totally radiopaque catheter inserted using the seldinger technique.
- Rotating fixation wings and Flexible distal tip.
- Polyurethane extension tubes with clamp, red on arterial lumen (blood aspiration), blue on venous lumen (blood return to patient).
- Specially-made adaptor helps to avoid infection.
- Available single, double, triple lumen in pediatric and adult sizes.

### SIZES

6.5FR  
8.5FR  
11.5FR  
12.0FR

## HEMODIALYSIS CATHETER KIT [DY103]

- Indwelling catheter made of specially formulated Polyurethane ensures smooth catheter insertion and better bio-compatibility.
- Catheter provide desired strength during insertion, softens at body temperature, thus reducing the risk of vascular trauma, kink free Nitinol Guide Wire prevents the vessel perforation and also provide good torque to ensure firm insertion.

**Kit Contents:**  
**Indwelling catheter, Y-Introducer needle with valve, J-tip guide wire, Dilators- 2 Nos, Luer lock syringe, Scalpel**

- Flexibility and Firmness, Softness and anti kinking.
- Soft tip, Small rotating fixation wing.
- Extension lines stand repeated clamping and de-clamping.
- Multiple threads female luer end, Injection caps.
- Variety of sizes, lengths and shapes.
- Sterile, Individually packed.

## FEMORAL CATHETER [DY104]

18

## PERITONEAL DIALYSIS CATHETER [DY105]

- Perforated open ended catheter.
- Stainless steel trocar.
- Provided with latex free bulb.
- Roller clamp for flow control.
- Long handle scalpel blade.
- Shelf Life: 60 Months.
- Sterile, Individually packed.

**SIZES**

**ADULT  
PEDIATRIC**

## PERITONEAL DIALYSIS SET [DY106]

- Y-shaped set.
- Available with sharp and easy piercing.
- Vented spike.
- Roller clamp for flow control.
- Provided with latex free bulb.
- Shelf life: 60 Months.
- Sterile, Individually packed.

## HEMOFILTER [DY107]

- Ultra-smooth PU cut surface reduces blood clotting.
- Uniform distribution of pore size for higher clearance.
- Excellent membrane bio-compatibility.
- Optimized asymmetric membrane structure.
- Shelf Life: 36 Months.
- Available variants: Low & High Flux.
- Wall Thickness/ Lumen-40/200µm.
- Membrane Polysulfone.
- Housing-Polycarbonate.

SIZES  
ADULT  
PEDIATRIC

19

- Used in dialysis with hemoconcentrator.
- Product along with the urine bag for collection of content.
- White clamp, PVC tubing with blue and red connector for identification.
- Non-Pyrogenic, kink resistant and longer durability.
- Sterile, Individually packed.

## HEMOFILTER TUBING [DY108]

## TRANSDUCER PROTECTOR [DY110]

- Antibacterial hydrophobic membrane with 0.2µm pore size with female/male L.L
- Prevents contamination of the internal pressure monitoring line.
- Connects blood tubing with dialysis machine.
- Made from polycarbonate material.
- Sterile, Non -Pyrogenic, Individually packed.

## RYLE'S TUBE [GE101]

- Nasogastric tube. Distal end is coned with radio opaque material for easy intubation.
- Four lateral eyes are provided for efficient aspiration and administration.
- Super smooth, low friction, frozen surface facilitates atraumatic intubation.
- The tube is marked at 50, 60 & 70 cm from the tip for accurate placement.
- Colour coded for instant size identification.
- Sterile, Individually packed.

### SIZES

08, 10, 12, 14,  
16, 18, 20FG

### SIZES

08, 10, 12, 14,  
16, 18, 20FG

- Used for the aspiration of gastric and intestinal contents and administration of tube feedings or medications.
- Manufactured from non toxic, medical grade PVC compound.
- Distal end is coned with four lateral eyes for efficient drainage.
- The tube is marked at 45, 55, 65 and 75cm from the distal end for accurate placement into the abdomen.
- Sterile, Individually packed.

## LEVIN'S TUBE [GE102]

## INFANT FEEDING TUBE [GE103]

- Used for neonates and paediatric feeding.
- Two lateral eyes for efficient drainage.
- Manufactured from non toxic, medical grade PVC compound.
- The tube is marked at 20 cm from the distal end for accurate placement into the abdomen.
- Proximal end is provided with luer mount for connection with feeding device.
- Sterile, Individually packed.

### SIZES

05, 06, 07,  
08, 09,  
10FG

## MUCUS EXTRACTOR [GE104]

### SIZES

25ml

- Specially designed for aspiration of secretions from oropharynx in newly born babies.
- Clear transparent container permits immediate visual examination of the aspirate.
- Spare plug cap is provided to seal the container for safe transportation of specimen to laboratory or aseptic disposal of container.
- Sterile, Individually packed.

21

## UMBILICAL CATHETER [GE105]

- Used to access the umbilical vessels of pre-mature or newly born babies.
- Made from non-toxic, medical grade PVC.
- Markings at every cm to ascertain depth of insertion radio opaque line ascertain position during scans.
- Available with female flexible mount and luer lock.
- Color coded funnel end connector for easy identification of size.
- Sterile, Individually packed.

### SIZES

3, 3.5, 4.0,  
5.0, 6.0,  
8.0FG

## FEEDING BAGS [GE106]

- Specially designed DEHP Free 1.2 Lit. capacity bag for feeding purpose.
- An ice pouch is provided with the bag for preserving the food for longer period.
- A transfer set is directly connected to the bag for easy feeding.
- Roller controller is provided to control the flow at which food is going to the patient.
- A hanger is provided with bag for easy hanging.
- Sterile, Individually packed .

# INFUSION THERAPY

22

## 3-WAY STOP COCK

[IT101]

- For accurate drug administration.
- Made up of Regular Polycarbonate OR Lipid resistant Polycarbonate Body, HDPE, PP.
- Arrows marks on the tap indicate direction of flow.
- Tap turns every 360° without limitation.
- Designed to withstand pressure upto 5 bars.
- Available with blue and red pegs for easier identification.
- Disposable, Sterile and Non-pyrogenic.

- Low pressure large bore extension line.
- Provided with male luer lock at one end and 3-way stopcock at other end enabling the user to run two lines simultaneously.
- Luer lock connector provide secure fitting.
- Manufactured from medical grade PVC.
- Disposable, Sterile and Non-pyrogenic.

### SIZES

10, 15, 25, 50,  
75, 100, 150,  
200cm

## 3-WAY STOPCOCK WITH EXTENSION LINE [IT103]

## HIGH PRESSURE EXTENTION LINES [IT106]

- Small bore high pressure extension line.
- Suitable for high pressure monitoring and for connection between syringe infusion pump and patient.
- Provided with male luer lock at one end and female luer lock at other end and fits all standard equipment.
- Luer lock connectors provide secure fitting.
- Sterile, individually packed.

### SIZES

10, 15, 25, 50, 75, 100, 125, 150, 200, 250, 300cm

23

- Suitable for angiography, angioplasty and during intervention radiology and cardiology procedures.
- Used as delivery device for I.V. fluids to the patient's vascular system
- Available with 2 & 3 way channels.
- Minimal residual & priming volume.
- Blood compatible/MRI compatible/Lipid compatible.
- Also available with needle free connectors.

### SIZES

2 POLE  
3 POLE

## MANIFOLD [IT109]

## SAMPLING MANIFOLD KIT WITH EXTENSION LINE [IT110]

- Made from PVC medical grade ,kink -resistant Non-pyrogenic Non-toxic.
- Attached with manifold with connecting different lines together.
- Manifold provides multiple actuation compatible.
- System provides reduction in risk of cross contamination of blood lines.
- Sterile, Individually packed.

### SIZES

2 POLE  
3 POLE

- Sharp piercing spike for easy insertion in I.V. container.
- Specially designed Cylindrical collapsible drip chamber to visualize the flow rate.
- Provided with disc type fluid filter to filter any particulate matters in the I.V. fluid.
- 150 cm long super smooth kink resistant tubing with efficient roller controller for accurate and unrestricted flow.
- Flash ball type injection port for extra medication.
- Infusion set with drop rate of 20 drops/ml.
- Sterile, individually packed

### SIZES

21G VENTED,  
21 NON VENTED,  
23VENTED  
MICRODRIP,  
23GNON-VENTED  
MICRODRIP,

## I.V. INFUSIONS SET [IT111]

## BURETTE SET [IT112] MEASURED VOLUME FLUID INFUSION SET

- Specially designed DEHP Free measured volume set with large calibrated burette chamber of 150 ml.
- Manufactured from USP class VI approved flexible cellulose propionate
- Floating auto shut off valve acts as floating indicator and automatically shut off the drain path when the chamber gets empty to prevent any air trapping into the fluid line on entering patient's venous system
- Roller type flow controller provides accurate flow control.
- "Y" injection site for extra medication.
- No-kink device prevents kinking of tube during transport.
- Sterile, Individually packed

**SIZES**  
**110ml**  
**150ml**

## ANGIO KIT [IT113]

- ClearKit Angio Kit, it is a standard kit and the components are listed below with the quantity mentioned in the kit.
- I.V. Set vented (1 Pc.).
- I.V. Set non-vented (1 Pc.).
- Manifold 2 Port R/On (1 Pc.).
- Pressure Monitoring Line 20cm (1 Pc.).
- Pressure Monitoring Line 100cm (1 Pc.).
- Syringe 10 mL Luer Lock (2 Pc.).
- Normal Syringe 10 mL (2 Pc.).

**SIZES**  
**SINGLE**  
**DOUBLE**

**24**

## GUIDE WIRE [IT114]

- Standard version with dispenser and Luer lock - fitting for flushing the wire.
- Wide range of guide wires with J-tip or straight end different diameters.
- High quality PTFE-coated stainless nickel-chromium steel (C).
- Highly flexible and smoothly rounded wire tip.
- Excellent steerability and stability.
- Sterile, individually packed.

**SIZES**  
**STRAIGHT TIP**  
**J-TIP**

## CVP MANOMETER [IT115]

- Suitable for continuous or intermittent, monitoring of central venous pressure during infusion particularly in ICU, CCU, OT's and casualty departments.
- Manometer tube with graduation from -4 cm to +34 cm and attached to three way tap.
- 120 cm. long extension tube is fitted with female luer lock on one end and male luer lock on the other end for safe connection to central venous catheter.
- Latex free rubber flash ball type injection port is provided for extra medication.
- Moulded clamps with latex free rubber strings are provided for easy fixation on the I.V. stand.
- Sterile, Individually packed.

## EXTENSION LINE WITH NEEDLE FREE CONNECTOR [IT116]

- Small bore multiple extension sets.
- Needleless Luer access ports provides virtually zero residual volume and high flow rates.
- Designed for multiple drug delivery.
- Needle free devices prevent thrombotic occlusion in I.V
- Line and inhibit microbial colonization.
- Closed system controls infection and air embolism.
- Available in single, double and triple lumen.
- Sterile, individually packed.

SIZES

**SINGLE  
DOUBLE  
TRIPLE**

## INTRODUCER NEEDLE [IT117]

[IT117]

SIZES

**18G  
20G**

- Used for percutaneous entry in to vein using the seldinger technique.
- Extremely low insertion forces.
- Gripped Hub give better control.
- Smooth guidewire insertion.
- Safety covers for unwanted hazards.
- Variety of size and length available.
- Sterile, Non-pyrogenic ,individually packed.

25

## I.V FLOW REGULATOR [IT118]

[IT118]

- I.V. flow Flow Regulator Extension Set to regulate the flow of IV fluid from an nfusion set into an IV catheter.
- Designed to control flow rate from 5ml/hr – 250 ml/hr manually.
- Built-in Y-connector injection site for extra medication.
- Two hand operation eliminates the danger of accidental tampering.
- Provision of male and female luer lock makes it compatible with other devices.
- Disposable, sterile and non-pyrogenic.

## I.V CANNULA [IT119] (INTRA VENOUS CANNULA)

[IT119]

- I.V. Cannula provided with injection port and non return valve for additional medication.
- Manufactured from fully automated CAD/ CAM process.
- Kink resistant FEP-Teflon cannula has extremely smooth inner and outer surface to ensure smooth flow.
- Radio-opaque stripes cannula for X-Ray visualisation.
- Double tapered moulded cannula tip ensures smooth and less traumatic cannulation
- Transparent flashback chamber allows immediate detection of blood.
- Sterile, Colour coded for instant size identification.

## MTP CANNULA

- Specially designed for aseptic menstrual termination of pregnancy.
- Distal end is connected with two large lateral eyes to facilitate the curette.
- Suitable for use with MIP syringe of suction apparatus.
- With universal adapter for connecting to suction apparatus.
- Sterile, non-pyrogenic.
- Individually packed .

### SIZES

04, 05, 06, 07,  
08, 09, 10,  
12FG

# SURGERY AND DRAINAGE

27

## CLOSE WOUND SUCTION UNIT [SD101]

- Suitable for close wound drainage under negative pressure post operatively with the option to operate one or two catheters simultaneously
- Graduated Bellow Chamber
- Connecting tube with clamp and "Y" connector
- Curved trocar with catheter
- Perforated DEHP Free Redon drain catheter
- Different catheter sizes available to meet moderate to heavy drainage needs.
- Sterile, Individually packed.

### SIZES

08,10,12,  
14,16,18,20FG

## THORACIC DRAINAGE CATHETER [SD103/104]

### SIZES

08,10,12,14,16,  
18,20,22,24,26,28,  
30,32,34,36,38,40FG

- Thoracic drainage catheter manufactured from DEHP Free material.
- Extra soft catheter is gentle to the body tissues and most suitable for thoracic drainage.
- Proximal end fitted with specially designed tapered tongue provides excellent forceps grip and non-traumatic insertion.
- Catheters are marked at every 2 cm from the last eye to ascertain the depth of placement.
- Sterile, Individually packed.

## THORACIC DRAINAGE CATHETER WITH TROCAR [SD105]

- Specially designed for quick non operative pleural and chest drainage, DEHP Free medical grade.
- Consists of sharp trocar and a clear PVC catheter.
- Large smooth drainage eyes for efficient drainage.
- Markings provided at 5, 10, 15 & 20 cm. from the distal tip to help ascertain depth of penetration.
- Proximal end is fitted with tapered connector for easy connection to drainage bottle.
- Sterile, Individually packed.

### SIZES

08,10,12,14,16,  
18,20,22,24,26,28,  
30,32,34,36FG

## AV TUBING [SD106]

[SD106]

- Non-toxic medical grade P.V.C. tubing.
- Vented protective caps are provided at tubing ends.
- Available in variable lengths
- E.T.O. Sterile & Pyrogen Free.

### SIZES

1/4x1/16  
1/2x3/32  
3/8x3/32

28

## UNDER WATER SEALED DRAINAGE SYSTEM [SD108]

- Under water seal drainage system.
- Double chamber compact unit has 2 litre capacity making it suitable for all cardiac and thoracic procedures.
- Easy to read markings help note the drainage volume.
- Clearly marked initial level ensures the under water seal.
- Suction port is provided for connection with suction unit.
- Kink resistant large bore tubing facilitates unrestricted flow.
- Unit is provided with metal hangers and floor stand.
- Sterile, Individually packed

### SIZES

PEDIATRIC  
ADULT

## AD KIT [SD109]

[SD109]

- Specially designed for post operative abdominal drainage.
- Soft and smooth catheter with large atraumatic eyes for efficient drainage.
- Radio-opaque line throughout its length help x-ray visualization.
- Specially designed foldable handle suitable for bed side hanging.
- Colour coded for instant size identification.
- Sterile, Individually packed.

### SIZES

16,18,20,22,24,  
26,28,30,32,  
34,36FG

## HEART LUNG PACK [SD110]

- Class VI Implant tested tubing.
- Kink-resisted, transparent, clear tubing.
- Useful in connecting with the oxygenator and heart transplant machine.
- Component includes: Gasline filter, arterial line filter, suction line etc.
- Sterile, pyrogen free, individually packed with special packing for easy use of product.

## YANKAUR SUCTION SET [SD111]

- Moulded Yankaur suction handle with flexible kink resistant tube provides unobstructed suction during prolonged use.
- Soft flexible adaptors at both ends of the tube provide safe grip to the handle as well as suction source.
- Sterile, pyrogen free, Individually packed

## SUCKER [SD112]

- Permits hand-held removal of excess fluid from the surgical field with a flexible cardiac sucker or with rigid (standard and mini) suckers incorporating a stainless steel tube.
- To clear the surgical site of excess blood.
- A plastic grip is equipped for comfortable operation.
- Low profile suction tube on flexible cardiac sucker equipped with 0.25 inch connector and fluted tip.
- Sterile, individually packed

SIZES

ADULT  
PEDIATRIC

## CARDIOPLEGIA ADAPTOR [SD113]

- These products allow for simultaneous perfusion of the aortic root and up to three or more vein grafts.
- Standard luer inlet port and colour clamps attached to an adapter which splits into four or more legs.
- The legs have locking male luer locks and color coded clamps for easy identification.
- Sterile, Individually packed.

SIZES

2-WAY  
3-WAY

## ARTERIAL LINE FILTER [SD114]

- The Arterial filter combines easy handling, effective elimination of Gas EMBOLi, FAT EMBOLi and aggregates composed of Platelets, Red Blood Cells and other debris.
- Filtration membrane 40 micron.
- Priming Volume 165 ml. Maximum Flow 7 L/min.
- E.T.O. Sterile & Pyrogen Free.

SIZES

**ADULT  
PEDIATRIC  
INFANT**

## CAUTERY PENCIL [SD115]

- Ergonomic design provides feel & balance of a high quality surgical instrument.
- Appropriate switch sensitivity.
- Clear & appropriate switch position, with gentle "click" when activated.
- Sealed switching components help to ensure the integrity & safety of both surgeon and patient.
- Pencil include a 2.5cm blade or needle electrode & attached cord with 3-prong connection.
- Streamlined, Anti-slippery surface, Light Weight.

30

31

## URINE COLLECTING BAG [UL101]

- Two litre capacity bag provided with 100 cm long super smooth kink resistant tubing ensures unrestricted flow.
- Moulded handle facilitates easy handling of bag and holds the tube in upright position to prevent kinking.
- Efficient non-return valve with top outlet.
- Modified tapered connector facilitates aseptic catheter-urine bag connection.

## URO-MEASURE BOTTLE WITH URINE COLLECTION BAG [UL102]

- Specially designed for measuring hourly urine output
- Urine Meter directly attached to two litre capacity urine bag with overflow facility.
- Clear measured volume chamber allows accurate reading.
- Universal tapered connector facilitates aseptic catheter and urine bag connection.
- Foldable hanger with tube holder for bed side hanging.

## TUR SET

(TRANS URINARY RESTRICTION SET) [UL103]

- Kink proof and highly smooth tubing for uniform flow rate.
- "Y" shaped set for endoscopic irrigation throughout T.U.R of prostate gland.
- Manufactured from non-toxic, non-irritant medical grade PVC.
- Thumb operated clamps, help smooth & quick changeover of bottles.
- Sterile, Individually Packed.

## FOLEY BALLON CATHETER [UL104]

32

- Used for short/long term urine drainage.
- Made from natural latex rubber.
- Silicon elastomer coated smooth surface for atraumatic catheterization.
- Large, laterally placed drainage eyelets enable efficient, trouble-free drainage.
- Non return valve has the standard size color coded sleeve for instant recognition of size.
- Sterile, individually packed.

### SIZES

2-WAY  
3-WAY

06,08,10,12,14,  
16,18,20,22,  
24FR

## NELATON CATHETER

[UL106]

- Designed for short term bladder catheterization through urethra.
- Manufactured from Medical Grade PVC compatible with catheter lubricants.
- Two lateral eyes for efficient drainage.
- Radio-opaque line provided throughout the length of catheter for X-ray visualization.
- Universal funnel shape connector for easy connection to urine bag..
- Sterile, individually packed.

### SIZES

06,08,10,12,14,  
16,18,20,22,  
24FG

## RECTAL CATHETER

[UL107]

- Used for introduction of enema solution into rectum.
- Made from Non-toxic, Non-irritant medical grade PVC.
- Proximal end with colour coded funnel connector for easy connection to the suction equipment.
- Open distal end is open with one lateral eye for efficient drainage.
- Sterile, Individually packed.

### SIZES

10,12,14,16,  
18,20,22,  
24FG

## MALE CATHETER [UL108]

- Used for urine drainage in incontinent male patients
- Manufactured from 100% latex for soft and gentle feel.
- Provided with soft adhesive coated strip for proper fixing on the penis.
- Proximal end is designed for safe and easy connection to urine bag/ leg bag
- Sterile, Individually packed

**SIZES**  
Small  
Medium  
Large  
Extra Large

## URETHRAL CATHETER [UL109]

**SIZES**

10FG  
12FG  
14FG

- Used for short term bladder catheterization.
- Made from non-toxic, non-irritant, medical grade PVC.
- Radio opaque line provided through out the catheter for X-ray visualization.
- Distal end with lateral eyes and proximal end funnel connector, for maximum.
- Drainage and easy connection to the urine bag.

33

## SUPRAPUBIC BALLOON CATHETER WITH TROCAR [UL110]

- Designed for cystostomy and supra-pubic drainage.
- Manufactured from 100% silicone.
- Symmetrical inflated balloon provided for self retention.
- Radio-opaque line throughout its length for x-ray visualization.
- One lateral eye at distal end for efficient drainage.
- Sterile, individually packed in box.

## UMBILICAL CORD CLAMP [UL111]

- Designed for clamping the umbilical cord of newly born baby immediately after birth to prevent blood loss.
- Finger Grip facilitates convenient handling and safe locking of the clamp cord.
- Interlocking Teeth hold the cord securely to prevent slipping of the umbilical cord.
- Locking Click indicates the correct locking and protects accidental re-opening after clamping.
- Sterile, individually packed.
